Several standards are expressed using XML Schema syntax. XML is the
Keywords: Interoperability, Standards, XML Schema, OWL, Ontologies.

1.1 Problem Statement
1.2 Use of OGC XML Schemas in FOSS4G

No impact on interoperability between applications and the
resulting schema/DTD remains.

The archival community is presently addressing questions
of semantic interoperability, which have been raised by
linked open data and the Semantic Web.

CECID developed the XML Schema Design & Management Guide for OGCIO.

HKSARG to assist

The guide facilitates data interoperability by providing.
